I have been in a customer service role for most of  
my career. As a waiter, cook, up to a manager within  
a year. Within a couple of years, I was training managers.  
Worked as a manager of a florist. Jumped to driving a bus  
Taking physically and mentally handicapped people to work.  
I drove a charter bus for 9 years before doing this. I have never  
had a problem dealing with the public and being a problem solver  
and being able to anticipate and ready to correct any problems
