Education

- 2010 MS Naropa University: Environmental Science/Leadership
- 2002 BS University of South Florida
Major Biology/Minor Psychology

Personal Note:

I have lived in 7 states with my husband while in the military. I have experienced so many unique things in my life and bring a flavor of life to my groups that is unforgettable. I love to laugh and I try to make my zest for life and everything it has to offer infectious. I want my kids to go home with memories they will never forget, like the ones I carry from all the adventures I have had in my life.
